

TigerTalk

January 8, 2021

The Coronavirus Committee moved the district into the YELLOW risk zone for the upcoming week. This decision occurred in part to having zero employees testing positive or being quarantined by the virus and manageable numbers with students as well. No changes will be made with masking protocols due to the move to YELLOW but some minor adjustments to daily procedures will occur on a building-by-building basis. Again, we ask everyone associated with NBC to please remain disciplined and cautious and communicate with the school as necessary so we are all working together through this trying time of holding school during a pandemic

Also, the latest NSAA guidelines are in effect and the approach from NBC to comply with these guidelines can be found on our web page come Monday. All away contests will continue to be handled at the discretion of the host school and be communicated to our fans through the school website and social media. Thanks a lot andGO TIGERS!
